Investor Presentation, April 2024

Cautionary note on forward-looking statements

This presentation and announcement entitled “Forging a bold future” may contain statements regarding the business of Olam Group Limited and its subsidiaries (“the Group”) that are of a forward-looking nature and are therefore based on management’s assumptions about future developments.

Such forward looking statements are intended to be identified by words such as ‘believe’, ‘estimate’, ‘intend’, ‘may’, ‘will’, ‘expect’, and ‘project’, and similar expressions as they relate to the Group. Forward-looking statements involve certain risks and uncertainties because they relate to future events. Actual results may vary materially from those targeted, expected or projected due to several factors.

Potential risks and uncertainties includes such factors as general economic conditions, foreign exchange fluctuations, interest rate changes, commodity price fluctuations and regulatory developments. Such factors that may affect Olam Group’s future financial results are detailed in our circulars, information memorandums, information contained in this presentation, or discussed in the news releases and in the Management Discussion and Analysis section of the Company’s and the Group’s results report and filings on SGXNET. The reader and/or listener is cautioned to not unduly rely on these forward-looking statements. We do not undertake any duty to publish any update or revision of any forward-looking statements.

Shareholders are advised to exercise caution in trading their Shares as there is no certainty or assurance as at the date of this presentation that the proposed IPO of **ofi** and Olam Agri and concurrent demerger will proceed, as they are subject to, inter alia, approval by regulators and future market conditions. Shareholders are advised to read this presentation and any further announcements by the Company carefully. Shareholders should consult their stockbrokers, solicitors or other professional advisors if they have any doubts about the action they should take.

All statements other than statements of historical facts included in this presentation are or may be forward-looking statements. Forward-looking statements include but are not limited to those using words such as "seek", "expect", "anticipate", "estimate", "believe", "intend", "project", "plan", "strategy", "forecast" and similar expressions or future or conditional verbs such as "will", "would", "should", "could", "may" and "might". These statements reflect the Company's current expectations, beliefs, hopes, intentions or strategies regarding the future and assumptions in light of currently available information. Such forward-looking statements are not guarantees of future performance or events and involve known and unknown risks and uncertainties. Accordingly, actual results may differ materially from those described in such forward-looking statements. Shareholders and investors of the Company should not place undue reliance on such forward-looking statements, and the Company does not undertake any obligation to update publicly or revise any forward-looking statements.

Nupo Ventures' vision is to create new businesses that build a more sustainable future for people, communities & our planet

Nupo Ventures: Culmination of a 5-year journey

We began as Olam Group's corporate innovation engine, seeking disruptive ideas to "Reimagine Global Agriculture & Food Systems" through smart investing in scalable technology instead of asset-heavy models.

We looked at 6 topics – of which 3 are still ongoing ventures. These are at various stages of traction with customers and partners

In 2022 we set up Nupo Ventures, a venture studio, as a new entity

Powered by our legacy, collective experience & expertise and supported by our venture building process, we want to develop pioneering start-ups.

Our portfolio will be able to deliver superior financial results and sustainability impact on topics around food & agriculture and beyond

Strong underlying trends for Nupo Ventures to tap into

Sustainable Consumers

Consumers are becoming increasingly interested in sustainability which is being reflected in everyday purchases and behavioral changes

Regenerative Food Systems

As consumers are becoming more concerned about sustainability, producers are incentivised to transition to a regenerative food system

Future-Ready Supply Chains

To accommodate and support the transition to regenerative food systems, supply chains need to become more future-ready

We are long-term partners for our ventures

Our structured venture building process includes thorough upfront research with unparalleled market access, to de-risk ideas

As early-stage investors, we prioritize long-term impact

We assist venture leaders throughout the venture building journey, from product launch to scaling teams

2023 has been a year of transition for Nupo Ventures; focus has been on growth of our portfolio companies

JIVA

Jiva is building a holistic farmer services ecosystem with a mission to improve the livelihood of smallholder farming communities, at scale

- JIVA's offtake business has achieved positive unit economics having grown their revenue by ~58% focusing on corn with inroads into cassava
- Although starting from a low base, input revenues grew 222% across its retailer, micro-collector and farmer network
- JIVA's network now extends to 100K farmers, 2K micro-collectors and 1K retailers. It's India-based farmer engagement platform has over 10M downloads till date
- In 2024 JIVA is planning on ramping up on Cassava, starting chilli as its 3rd crop for offtake as well as launching its own private-label input products

Terrascope

Terrascope is an e2e decarbonisation platform and it is on a mission to help companies deliver credible paths to net zero

- Terrascope experienced significant growth and now serves 25 large enterprise customers. They also entered new markets like Japan and UK.
- The platform has built substantial enhancements including introducing capabilities like Product Carbon Footprint and FLAG based emissions reporting
- Terrascope has formed a Sustainability Advisory Council comprising prominent figures in ESG & Decarbonisation. They also adopted their own pledge of net-zero by 2040.
- In 2024, the platform capabilities will continue to expand driven by customer demand while exploring a launch in the US market

Tract

TRACT™ is building a ground-breaking digital platform with a mission to enhance sustainability and transparency in the food and agriculture sector

- Tract was launched in 2023 along with JV partners ADM, Cargill and LDC
- Last year we collaborated with over 30 companies to build the first version of the product focusing on coffee and palm
- 2023 also saw the setting up of the full-time team at Tract, starting with the appointment of an independent CEO Allison Kopf who started from January 2024
- 2024 will also see the customer launch of the Tract platform along with expanding the product to other commodities and sustainability areas

Re-organisation update

1

The Olam Agri IPO will not take place in H1 2024 as the regulatory framework is still being finalised in the Kingdom of Saudi Arabia to enable the listing of foreign companies and the issuance of Saudi Depositary Receipts on the Saudi Exchange.

2

The Group remains committed to list **ofi** and Olam Agri and will retain flexibility on the listing sequence, as well as exploring other strategic options to unlock value.

3

The Group will consider both internal and external factors, such as business performance of all three operating groups, prevailing capital markets conditions and global macroeconomic developments as well as receiving all necessary regulatory approvals.

¹Any listing and demerger, including the timing, venues and other terms thereof, are subject to inter alia prevailing market conditions, all requisite approvals and clearances from regulatory authorities, and relevant approvals of shareholders. It is also subject to final decision by Olam Group board. Shareholders should note that there is no certainty or assurance that the listing and demerger of **ofi** and Olam Agri will take place.

Marginal increase in invested capital³

The increase in invested capital came mainly from working capital on the increase in inventory value and temporary increase in receivables.

Net gearing increased on higher net debt and reduced equity; equity came down due to foreign currency translation loss from the devaluation of the US dollar, Nigerian Naira and Russian Ruble against the reporting currency, as well as dividend payments.

³Invested Capital excludes Gabon Fertiliser Project (31-Dec-2023: S\$244.8 million; 31-Dec-2022: S\$239.5 million)

S\$ Million

EBIT

- EBIT was up 11.1% to S\$829.3 million on the back of a strong performance from Ingredients & Solutions, an endorsement of its value-added growth strategy.
- Ingredients & Solutions successfully passed through cost inflation in input raw material and other costs, while also leveraging its recent investments. This was partially offset by a reduced contribution from Global Sourcing
- Adjusted EBIT grew by 10.9% to S\$874.2 million.

S\$ Million

Invested Capital

- Invested Capital was largely flat at S\$11.8 billion, with increase in fixed and working capital deployed in Ingredients & Solutions as new facilities came onstream. This was largely offset by reduced capital in Global Sourcing segment from a combination of lower volumes and tight controls on operational cycle time.

- While the Coffee and Cocoa businesses did well to navigate the market volatility, the US peanuts business faced operational challenges and the dairy supply chain business was impacted by China's muted re-opening.

- This reflects successful pass through of input and other cost inflation as well as successful commissioning and execution of recent investments. Cocoa and coffee were the primary drivers of I&S EBIT growth, while industrial Spices in US was impacted by consumer de-stocking, though this was largely offset by improved performance from private label (Olde Thompson).

EBIT

EBIT grew by 12.8% to S\$967.7 million in 2023, reflecting the impact of reduced costs of sales on Olam Agri as commodity prices and input prices fell.

Contribution from Food & Feed – Processing & Value-Added segment expanded by a robust 39.8%, compensating for the lower contribution from the Fibre, Agri-Industrials & Ag Services (-16.8%) and Food & Feed – Origination & Merchandising segments (-10.9%).

S\$ Million
Invested Capital

IC grew by 6.5% or S\$334.1 million in 2023, primarily on the increase in invested capital from the Fibre, Agri-Industrials & Ag Services segment.

EBIT declined 10.9% to S\$224.4 million on account of reduced contribution from Edible Oils and Freight, when compared against their strong performance in 2022.

Contribution from Edible Oils were affected by the significant drop in palm oil prices from the peak in 2022; sharp turn in freight market conditions and the Red Sea crisis led to a weaker showing in our freight business.

Strong EBIT growth in Grains & Oilseeds and Rice partly compensated for the lower Edible Oils and Freight results.

Segment continued to deliver strong results in 2023: The flour and pasta business across Nigeria, Ghana, Senegal and Cameroon achieved outstanding results despite severe currency depreciation of Naira and Cedi.

Integrated Feed & Protein reported a stronger performance in 2023 after its expansion of fish feed production capacity in H2 2022; poultry feed results improved considerably compared with 2022 which was adversely impacted by avian influenza.

Rice, Specialty Grains & Seeds business also posted good growth in 2023.

IC came down by 4.8% to S\$2.2 billion mainly from reduced working capital utilisation due to lower input prices, particularly for wheat milling.

- Invested capital increased by 33.8% or S\$483.8 million partly from higher working capital in Cotton and Rubber.
- Fixed capital grew on account of new investments in integrated ginning in Tchad and Cote d'Ivoire as well as additional investments in saw milling and rubber processing.
- The transfer of sugar milling assets in India into this segment also contributed to the increase in invested capital.

EBIT
S\$ Million

- The segment reported an EBIT loss of S\$25.1 million, dragged down by lower earnings from the De-prioritised/Exiting Assets and losses in the Incubating Businesses (Nupo Ventures).
- Olam Rubber Gabon underperformed on lower rubber prices and increase in overheads; contribution from the sugar mill in India decreased following the transfer of the assets into Olam Agri.
- Continuing/Gestating Businesses maintained its performance as the reduction in earnings from Rusmolco, Packaged Foods and ARISE P&L was made up by improved earnings from Olam Palm Gabon and Mindsprint.

Invested Capital
S\$ Million

- IC came down by 4.7% or S\$124.9 million. Fixed capital decreased due to the impact of the currency devaluation on Packaged Foods and Rusmolco.
- The transfer of sugar milling assets in India to Olam Agri also reduced working and fixed capital deployed.

Business outlook and prospects

1

Global macro risks and market volatilities are expected to heighten and shipments disruptions to continue as geopolitical events unfold.

Notwithstanding this challenging backdrop, the Group expects the food and agriculture industry to remain resilient.

2

ofi continues to execute its strategy by investing for the future with new manufacturing assets and enhanced capabilities in sustainability, digital, innovation and other customer facing areas. While overall end-consumer demand is uncertain across some categories, **ofi** is well-positioned to service its customer needs, with strong and expanding solutions capabilities combined with surety of supply, traceability and sustainability impacts.

ofi's guidance remains unchanged at low to mid-single digit total volume growth and high single-digit adjusted total EBIT growth over the medium-term.

Olam Agri continues to execute its strategy of scaling up its global origination and trading operations while investing in value-added destination processing across Africa and Asia to execute on its differentiated strategy to deliver profitable growth and superior returns. The Strategic Supply and Cooperation agreement with SALIC is also expected to catalyse its growth in the Gulf region.

As part of a strategic portfolio re-alignment, Olam Agri has taken the decision to close the Fund Management business of its subsidiary Olam Fund Management.

Olam Nigeria and its subsidiaries

- As announced on February 19, 2024, an independent internal investigation launched by the Olam Group Board and its Audit & Risk Committee comprising external counsels and independent external accountants has concluded. The investigation team found no evidence supporting any of the specific allegations reported.
- Olam Nigeria has cooperated fully with the Nigerian authorities and assisted in their enquiry. No charges have been brought against Olam Nigeria or any of its officers by the Nigerian authorities.
- In the meanwhile, all our businesses in Nigeria have been operating normally and we look forward to continue investing and growing in the country.
