In addition to reviewing documents, in-depth interviews were conducted with key stakeholders, such as, WALHI National Executive and Sulawesi Central Regional Office, TUK Indonesia, PT AAL, the Sulawesi Plantation Department and Land Agency, Donggala District of Central Sulawesi Plantation Department and Land Agency and North Morowali District of Central Sulawesi Plantation Department. Direct face to face discussions were also held with community representative at six villages, including Panca Mukti, Tawiora, Bunta, Bungintimbe, Tompira, and Molino villages. All discussions were held in appropriate relevant local languages. ENS confirmed that all the stakeholders demonstrated goodwill, acted collaboratively during the interviews, and shared key information transparently in a way that is vital for the assessment and ultimate</p>

				<p>grievance resolution. ENS has transparently shared their findings in unilateral meetings with P&G, WALHI (held in Bahasa Indonesia), Wilmar and PT AAL. The final report was shared with Wilmar in September 2022. For more information on the outcome of the verification process commissioned by P&G, please refer to the executive summary report on the verification process prepared by P&G.</p> <p>PT AAL on the other hand has engaged with the Conflict Resolution Unit (CRU) to evaluate their current human rights related practices. Incubated through the Indonesia Business Council for Sustainable Development (IBCSO) in 2015, CRU is a conflict resolution service agency that provides independent support for resolving conflicts in the management of agrarian and natural resources.</p> <p>During the grievance investigation and verification process, we have closely engaged with all related parties, including PT AAL, P&G and ENS, where our last meeting was on 22 September 2022. PT AAL is committed to work towards the resolution of the case and more information related to their action plan will be provided in due course. In the meantime, Wilmar continues its engagement with PT AAL and all other relevant stakeholders in working towards resolution of the case.</p> <p>June 2022 AAL mentioned that these allegations have been published in other resources except FoE. They investigated the allegations and confirmed that ANA, LTT and Mamuang have always operated in accordance with the law in Indonesia and hold all the necessary permits to conduct their businesses and operations. None of these AAL subsidiaries are involved in any illegal land acquisitions. Both Mamuang and LTT obtained the HGU certificates (rights to cultivate land title certificate) and it is in progress for ANA. AAL assured that all three subsidiaries did not engage in any form of 'land grabbing' or human rights violations. They are fully aligned on its Human Rights strategy with the United Nations Guiding Principles on Business and Human Rights, which has been implemented across the company's entire operations and supply chain.</p>

				<p>ALL has formalised its commitments to the NDPE principles of “No Deforestation, No Peat Development, and Respecting Human Rights”, following which there has been no new development of land. According to ALL, ANA, LTT and Mamuang have taken strict measures around the disposal of palm oil waste and to prevent any possible agrochemical contamination around their plantation sites.</p> <p>May 2022 AAL has acknowledged Olam’s email and requested time to revert with a full response.</p> <p>April 2022 Olam does not source directly from these three named subsidiaries of AAL. However, other Olam direct suppliers (e.g.: Wilmar) are sourcing directly from PT Agro Nusa Abadi.</p> <p>Olam also sources from other AAL subsidiaries (PT Gunung Sejahtera Ibu Pertiwi, PT Sari Lembah Subur, PT Kimia Tirta Utam, PT Sari Aditya Loka).</p> <p>Initial investigation has informed Olam that our direct supplier, Wilmar, has reached out to AAL to confirm the allegations. Wilmar, together with Procter and Gamble (P&G) have officially lodged the case in March 2021. P&G has commissioned an independent assessment on the allegations involving PT AAL based on the agreement with the complainants. PT AAL has engaged with the Conflict Resolution Unit (CRU) to evaluate their current human rights related practices. Wilmar continues to engage with PT AAL to work towards the resolution of the case.</p> <p>Olam will continue monitoring the case and has engaged both AAL and Wilmar for further updates.</p>

			<p>palm oil broker called CV Buana Indah & CV Natama Prima.</p> <p>Global Sawit Semesta is a direct supplier to Apical.</p>		<p>May 2023 Apical conducted a field verification on 30 April 2023 with PT Global Sawit Semesta, its dealer and an NGO to investigate the grievance issues of Mr. Mahmudin's estate that was allegedly overlapping with Rawa Singkil protected area and issues of other illegal sources. Apical maintains it's position of no sourcing from Mr. Mahmudin directly or indirectly.</p> <p>April 2023 Apical maintains a no sourcing position from Mr. Mahmudin directly or indirectly. Several meetings were held with RAN to clarify matters. Apical stated in its grievance list that they will take on further engagement with Mr. Mahmudin to support NDPE Compliance.</p> <p>January 2023 Ann independent field verification was conducted in August & September 2022 by an expert (Daemeter Consulting) based on the Accountability Framework initiative (AFI) principles to ensure continuous improvement and supply chain NDPE compliance</p> <p>October 2022 Apical provides clarification as follow:</p> <ul style="list-style-type: none"> • <u>PT Natama Prima</u> (or "collection point A" as shown in Annex 1 of <u>PT GSS Clarification Letter</u>) is a supplier of PT Global Sawit Lestari (PT GSS), an Apical supplier. • PT Natama Prima sourced from 3 estates (Mahmudin 1,2,3), which are located on legally-permitted (APL) and non-forested areas. PT GSS had verified the locations physically at sites, and overlaid the GPS locations with Spatial National Map of

					<p>Indonesia. It is clean and clear for smallholder estates.</p> <ul style="list-style-type: none"> The Mahumudin oil palm plantation, entrance, and "collection point B" (claimed illegal, as shown in Annex 2) presented in the report is located at a different location (away to the south); A weight bridge ticket showing FFB delivery from PT Natama Prima to PT GSS does not form a valid basis to assume any FFB delivery from collection point B to another collection point A (PT Natama Prima), then to PT GSS. No evidence was presented in the report to verify this claim. Additionally, the travel distance between collection point B and PT GSS is 96km. <p>Based on investigation, PT GSS confirms that the collection point B (illegal source) is not a supplier of PT GSS. PT GSS has taken immediate action to cease sourcing from all the Mr. Mahmudin's estates.</p> <p>The investigation demonstrates due diligence carried out by PT GSS on FFB sources, and the alleged illegal FFBs is not part of the PT GSS supply chain.</p> <p>September 2022 Olam has reached out to Apical and is waiting for its response</p>
