NEWS RELEASE

OLAM INTERNATIONAL TO INVEST IN NEW WHEAT MILL IN GHANA

Singapore, February 11, 2010 – Olam International Limited (“Olam” or “the Company”), a leading global, integrated supply chain manager of agricultural products and food ingredients, announced today that it will invest US\$31.5 million to set up a greenfield 500 metric tonne-per day wheat mill near Port Tema, close to the largest flour market in Ghana.

Ghana is a large market for wheat flour in West Africa, consuming approximately 270,000 metric tonnes annually. Wheat milling is a fundamentally attractive opportunity in Ghana due to i) growing wheat flour consumption of expected 7.5% per annum over next five years; ii) the country imposing tariffs on flour imports; iii) the country having to import all its wheat requirements; and iv) the oligopolistic nature of the industry.

Olam’s President for the Grains business K C Suresh said: “In January 2010, we acquired Nigeria’s third largest wheat milling company, Crown Flour Mills. This greenfield investment in Ghana is in line with our strategic thrust of building a configuration of port-based wheat milling facilities in Africa. It also carries a high strategic value for our distribution business in Ghana as it will significantly strengthen our competitive position by adding wheat flour to our current distribution portfolio of Rice, Sugar, Dairy Products, Tomato Paste and Edible Oil.”

Olam plans to commence construction of the wheat mill in March 2010 and commission the plant by September 2011. The Company aims to achieve 115,000 metric tonnes in annual flour production in three years (FY2014) and become the third largest wheat milling company in Ghana. The mill is expected to turn in US\$64 million in revenues and US\$14.9 million in EBITDA by that time, and generate a project IRR of 25%.
