¹ The Company had announced a fiscal year-end change from June 30 to December 31. With this change, the Company's current fiscal year, which began on July 1, 2014 will end on December 31, 2015. Thereafter, the Company will follow a January to December fiscal year. The numbers presented and analysed in the MD&A from Pages 3-18 are for the first quarter ended March 31, 2015 (“Q1 2015”) and are compared to the prior corresponding quarter ended 31 March 2014 (“Q1 2014”). See additional explanation on pages 5-6.

Key Highlights

Financial Performance

- ❖ Olam achieved **strong underlying performance** in Q1 2015 with **Operational Profit After Taxes and Minority Interests (PATMI** after excluding exceptional items) **up by 25.7% to S\$128.5 million** (Q1 2014: S\$102.2 million). This performance was achieved despite the adverse impact of **continuing currency devaluation** on some of our import and domestic distribution businesses.
- ❖ **Reported PATMI declined 92.1% to S\$31.3 million** for Q1 2015 (Q1 2014: S\$396.1 million). PATMI for Q1 2014 included an exceptional gain of S\$293.9 million principally from the revaluation of our stake in PureCircle Limited (S\$271.0 million) and the sale and leaseback of Australian almond assets (S\$63.2 million). Reported PATMI for Q1 2015 includes a net exceptional loss of S\$97.2 million mainly from the buyback of bonds. The buyback of the bonds are expected to generate interest savings of approximately S\$55.0 to S\$60.0 million per annum over the next three years.
- ❖ **Sales volume declined by 33.2%** as compared to Q1 2014 with continued growth in prioritised platforms offset by reduced volume from lower margin businesses that were discontinued or restructured in line with our strategic plan objectives.
- ❖ **Earnings Before Interest, Tax, Depreciation, and Amortisation (EBITDA) declined marginally by 1.5% to S\$330.1 million** in Q1 2015 compared to S\$335.3 million in Q1 2014 with steady underlying growth from all segments except the Food Staples & Packaged Foods segment. This segment was impacted by the underperformance in the upstream Dairy farming operations in Uruguay and by the devaluation of local currencies in Nigeria, Ghana and Mozambique against the US dollar, which affected our import and domestic distribution businesses in these countries. **The estimated net negative impact of the currency devaluation on EBITDA in Q1 2015 was approximately S\$12.0 million.**
- ❖ These results also included a **net loss of S\$14.7 million** for Q1 2015 on the **fair valuation of biological assets** compared to a **net loss of S\$8.7 million** in Q1 2014.
- ❖ **Net finance costs** (excluding the one-time charge on the buyback of bonds) continued to trend lower at **S\$123.2 million** in Q1 2015 compared to **S\$141.2 million** in Q1 2014 due to various initiatives undertaken to optimise debt tenors and cost of borrowing.
- ❖ **Depreciation and amortisation** was marginally **lower at S\$52.4 million** in Q1 2015 compared to **S\$57.5 million** in Q1 2014 due to fixed asset divestments.
- ❖ **Tax expenses** (excluding tax on exceptional items) for Q1 2015 were **lower at S\$29.6 million** as compared to **S\$37.6 million** for the prior corresponding period.

- ❖ We incurred gross **cash capital expenditure (Capex) of S\$301.5 million** in Q1 2015 as compared to S\$180.0 million in Q1 2014. Net of disposals, we invested cash of **S\$79.0 million** in Q1 2015 as against a cash release of S\$94.5 million in Q1 2014. It must be noted that the Capex for Q1 2015 includes an investment of S\$225.9 million for the acquisition of McCleskey Mills, Inc. (“MMI”). Excluding this investment, the Capex spend in Q1 2015 was S\$75.6 million which is a reduction of 58.0% over the corresponding prior period.
- ❖ We generated **positive free cash flow to firm** of S\$120.2 million during the current period as against negative S\$424.8 million in Q1 2014. This was achieved by a combination of higher operating cash and divestment cash flows and lower working capital requirements, which was partly offset by the investment in MMI.
- ❖ **Net gearing of 1.83 times** at March 31, 2015 **was lower than 2.03 times** as at March 31, 2014, and in line with our 2016 objective of operating at or below 2.0 times.
- ❖ Subsequent to the strategic plan announcement in April 2013, we have completed 20 **strategic initiatives** to-date which have **released cash of S\$966.1 million**, generated a **P&L gain of S\$125.2 million** and added **S\$154.2 million directly to our capital reserves**.

M&A

- ❖ On January 12, 2015, the Company announced the **sale of its Australian wool business**, Western Wool Marketing to Quality Wool of Australia.
- ❖ On January 28, 2015, the Company completed the **acquisition of MMI** at a final consideration of US\$175.0 million (S\$225.9 million). The purchase price allocation for the acquisition is expected to be completed by September 2015.
- ❖ On February 2, 2015, the Company announced **the completion of the sale of a 25.0% stake in its Packaged Foods business to Sanyo Foods Co. Ltd.** (“Sanyo Foods”). The Company received **cash proceeds of US\$167.5 million (S\$219.1 million)** and generated a capital gain of **S\$106.2 million which was added directly to its capital reserves**. Following the completion of the sale, Olam owns 75.0% of Caraway Pte Ltd. (“Caraway”), the holding company for all of the Company’s Packaged Foods businesses with the balance 25.0% owned by Sanyo Foods.
- ❖ On March 2, 2015, the Company announced its participation in the **Republic of Gabon's (“RoG”) GRAINE out-grower plantation programme** through a joint venture in which RoG will hold 51.0% equity ownership and the Company will hold the balance 49.0%.
- ❖ The closure of the ADM Cocoa acquisition is expected by the end of Q3 2015.

Financing

- ❖ On January 15, 2015, the Company announced the issuance of **US\$50.0 million 5 year Senior Notes** due 2020 in a private placement to an institutional investor in Japan at a fixed coupon of 4.00%.
- ❖ On January 28, 2015, the Company announced that it had exercised its option to **redeem all of the outstanding US\$750.0 million 6.75% bonds** due 2018 at a redemption price of 103.375% of the principal amount. Consequent to the redemption, the Company recorded a **one-time charge of S\$97.7 million in Q1 2015** towards payment of redemption premium, amortisation of deferred expenses and the write back of the changes in the fair valuation of the bond from inception till June 30, 2014.

The bonds, which were initially issued at 95% of their principal amount, had an effective interest cost of 8.08%. By exercising the redemption option, the Company has replaced these bonds using short and medium term borrowing at an effective cost of ~2.00% to 2.50% per annum thereby **saving approximately S\$55.0 to S\$60.0 million of interest per annum** over the next three years.

- ❖ On March 17, 2015, the Company announced the issuance of **A\$125.0 million 4.875% 5 year Senior Unsecured Notes due 2020**. On March 19, 2015, the Company announced the issuance of additional notes of A\$25.0 million, thereby increasing the total aggregate principal amount of the **combined issuance to A\$150.0 million at an issue price of 100.069%** of their principal amount. The **post-swap US Dollar fixed coupon for the combined 5 year tenor issuance is 3.975% per annum**.
- ❖ Post March 2015, the Company announced the issuance of an **additional A\$30.0 million 5 year Senior Unsecured Notes due 2020** which would be fungible with the A\$150.0 million issuance. **The effective post-swap US Dollar fixed coupon on the new issuance was 3.60% per annum for 5 years**, which was at a significant discount to the prevailing secondary prices of the Company's outstanding bonds.

Others

- ❖ On January 8, 2015, we announced a **fiscal year-end change from June 30 to December 31**. This change was done to align our fiscal year to comply with the Group consolidation and reporting requirements of our majority shareholder.
- ❖ With this change, for the purpose of statutory reporting (SGXNET) the quarterly and cumulative financials will be presented for the current fiscal year which began on July 1, 2014 will end on December 31, 2015.

- ❖ However, as part of the transition to the new fiscal year, the numbers presented and analysed in the MD&A are for the first quarter ended March 31, 2015 of the new fiscal year (January 1, 2015 to December 31, 2015) and are compared to the prior corresponding quarter.
- ❖ To aid comparison on the previous fiscal year basis (July to June), we are also presenting the financials for the nine months ended March 31, 2015 (“9M FY2015”) as compared to the prior corresponding period (“9M FY2014”) in the Cumulative Financials section of the MD&A.
- ❖ In addition, pro-forma historical financial statements (profit and loss statement, balance sheet, abridged cash flow) as well as business and value chain segmental analysis have been re-stated to the new financial year (January to December) for the past three years (2012, 2013 and 2014) to facilitate analysis. These were disclosed via SGXNET on May 11, 2015, and are also available on our website (www.olamgroup.com)

Strategic Plan Update

1. Recalibrate the pace of investments

We incurred gross **Capex of S\$301.5 million** in Q1 2015 as compared to **S\$180.0 million** in Q1 2014. The Capex for Q1 2015 includes an investment of approximately S\$225.9 million for the acquisition of McCleskey Mills, Inc. which was not a part of the strategic plan Capex guidance. Excluding this investment, the Capex spend in Q1 2015 was S\$75.6 million which is a reduction of 58.0% over the corresponding prior period.

2. Optimise balance sheet

Several initiatives have been undertaken towards optimising working capital utilisation across the supply chain, including a reduction in inventory levels, receivable factoring, securing higher supplier credit and prioritisation of higher margin transactions within each business unit.

In addition, **various initiatives to optimise the balance sheet and improve returns have also been completed**. These include the sale-and-leaseback of Dairy farming land in Uruguay, almond plantation assets in the US and Australia, the repurchase of long term unsecured bonds of **US\$30.0 million** issued by NZ Farming Systems Uruguay Limited (“NZFSU”) and the repurchase of 7.0% **perpetual capital securities** and 6.0% **fixed rate notes** due 2022 aggregating **S\$54.2 million**.

3. Pursue opportunities for unlocking intrinsic value

We have **completed several initiatives**, including the sale of our basmati rice mill in India, the sale of a 25.5% interest in our instant noodles business in Nigeria to Sanyo Foods of Japan, the sale of Dirranbandi and Collymongle cotton gins in Australia, the sale of a 50.0% stake in our Grains origination operation – Olam Lansing Canada, the sale of 9.8% equity stake in our Dairy processing operation – Open Country Dairy (OCD), New Zealand, the sale of 20.0% stake in the SEZ to the Republic of Gabon, the sale of 80.0% stake in our Australian grains business to Mitsubishi Corporation, sale of equity in our upstream Palm and Rubber joint ventures in Gabon to the Republic of Gabon and the sale of 25.0% stake in our Packaged Foods business to Sanyo Foods.

4. Optimise shape of portfolio and reduce complexity

In addition to the **partial divestment of our Wood Products business in Gabon**, we sold our **Timber subsidiary** Compagnie Forestière des Abeilles SA (“CFA”) in Gabon for **US\$6.0 million**. We also **exited from the Rice distribution business** in Côte d’Ivoire, announced the **sale of our Australian wool business** and closed a **vegetable dehydrates facility in the US**.

These transactions will help bring a sharper focus to the business and are expected to reduce operating costs going forward.

In summary, initiatives already completed have released cash of S\$966.1 million, generated a P&L gain of S\$125.2 million and added S\$154.2 million to our capital reserves:

SGD Mn

Summary of Completed Strategic Plan Initiatives	Number of Initiatives	P & L impact	Addition to capital reserves	Cash flow impact
Closed in 2012	1	17.4		68.6
Closed in 2013	4	18.2	14.2	65.5
Sale and Leaseback of Almond Plantation Assets, Australia		65.4		233.2
Divestment of Olam Lansing JV, Canada				6.8
Sale of Timber Assets, Gabon		(14.6)		22.8
Repurchase of Bonds and Perpetual Securities		1.0	2.3	
Sale of 9.8% stake in OCDL, New Zealand		(0.6)		35.1
Australian Grains JV with Mitsubishi Corporation		28.8		79.8
Sale of Timber Subsidiary in Gabon		(22.6)		7.5
Sale of Collymongle Cotton Gin, Australia		6.0		9.9
Sale of 20% stake in SEZ to RoG, Gabon				74.8
Sale of Dairy Processing Plant, Cote d'Ivoire		13.2		32.7
Sale of 10%/20% stake in Palm/Rubber to RoG, Gabon			31.5	40.0
Sale and Leaseback of Dairy Farm Land, Uruguay		20.4		70.4
Sale of Australian Wool Business		(2.7)		
Closure of SVI dehydrates facility, US		(4.7)		
Closed in 2014	14	89.6	33.8	612.9
Sale of 25% stake in Packaged Foods BU to Sanyo Foods			106.2	219.1
Closed in 2015	1		106.2	219.1
Total	20	125.2	154.2	966.1

Note 1: Cash proceeds for some 2014 initiatives will be received in 2015.

Note 2: Figures in the table above may change to reflect the closing balance sheet position and changes in the closing exchange rates from the date of completion till the date of reporting.

Summary of Financial and Operating Results (Jan 2015 – Mar 2015)

Profit and Loss Statement

	SGD Mn		
	Q1 2015	Q1 2014	% Change
Volume ('000 MT)	2,682.8	4,018.0	(33.2)
Revenue	4,321.1	4,836.4	(10.7)
EBITDA	330.1	335.3	(1.5)
PAT	27.6	392.9	(93.0)
PATMI	31.3	396.1	(92.1)
Operational PATMI	128.5	102.2	25.7

Operational PATMI (excluding exceptional items) increased by 25.7% over the prior corresponding period with the positive impact of lower finance costs, tax and depreciation and amortisation expenses offsetting the marginally lower EBITDA for the period. Reported PATMI for Q1 2015 declined by 92.1% primarily due to a net exceptional loss of S\$97.2 million in Q1 2015 as against a net exceptional gain of S\$293.9 million in Q1 2014.

Volume declined 33.2% primarily from reduced volume from lower margin or discontinued businesses (such as Wood Products, Grains trading and cashew processing), which was in line with our strategic plan objectives. Overall revenues declined by 10.7% due to lower volumes, which was partly offset by higher prices of some commodities, such as almonds, pepper and hazelnuts as compared to the prior corresponding period.

EBITDA for Q1 2015 declined marginally by 1.5% to S\$330.1 million with growth across all segments with the exception of Food Staples & Packaged Foods. This segment was impacted by the underperformance in the upstream Dairy farming operations in Uruguay and by the devaluation of local currencies in Nigeria, Ghana and Mozambique against the US dollar, which affected our import and domestic distribution businesses in these countries. The estimated net negative impact of the currency devaluation on EBITDA in Q1 2015 was approximately S\$12.0 million.

These results included a net loss of S\$14.7 million on the fair valuation of biological assets compared to a net loss of S\$8.7 million in Q1 2014.

Balance Sheet Analysis

SGD Mn

	31-Mar-15	31-Dec-14	Change vs Dec 14	31-Mar-14	Change vs Mar 14
Uses of Capital					
Fixed Capital	5,811.1	6,056.3	(245.2)	6,069.9	(258.8)
Working Capital	6,321.5	6,259.4	62.1	6,882.5	(561.0)
Cash	1,272.6	1,845.8	(573.2)	1,022.6	250.0
Others	258.8	(27.1)	285.9	(333.6)	592.4
Total	13,664.0	14,134.4	(470.4)	13,641.4	22.6
Sources of Capital					
Equity & Reserves	4,363.4	4,320.1	43.3	4,186.5	176.9
Non-controlling interests	232.6	126.3	106.3	136.4	96.2
Short term debt	2,725.0	2,623.7	101.3	3,758.8	(1,033.8)
Long term debt	6,552.8	7,217.0	(664.2)	5,748.0	804.8
Fair value reserve	(209.8)	(152.7)	(57.1)	(188.3)	(21.5)
Total	13,664.0	14,134.4	(470.4)	13,641.4	22.6

Our total assets of S\$13.7 billion comprised S\$1.3 billion of cash, S\$6.3 billion of working capital and S\$5.8 billion of long term fixed assets. These were funded by S\$4.4 billion of equity, S\$2.7 billion of short term debt and S\$6.6 billion of long term debt.

Cash Flow Analysis

SGD Mn

Cash Flow Summary	Q1 2015	Q1 2014	Y-o-Y
Operating Cash flow (before Interest & Tax)	372.1	293.2	78.9
Changes in Working Capital	(162.7)	(801.6)	638.9
Net Operating Cash Flow	209.4	(508.4)	717.8
Tax paid	(10.2)	(10.9)	0.7
Capex/ Investments	(79.0)	94.5	(173.5)
Free cash flow to firm (FCFF)	120.2	(424.8)	545.0
Net interest paid	(177.6)	(151.9)	(25.7)
Free cash flow to equity (FCFE)	(57.4)	(576.7)	519.3

We generated positive free cash flow to firm of S\$120.2 million during the current period against negative cash flow of S\$424.8 million in the prior corresponding period from a combination of higher operating cash flow and lower working capital requirements, partly offset by an increase in net Capex due to the acquisition of MMI.

Detailed Financial Analysis

SGD Mn

	Q1 2015	Q1 2014	% Change

PBT	57.2	430.5	(86.7)
Taxation	(29.6)	(37.6)	(21.2)
PAT	27.6	392.9	(93.0)
PAT %	0.6%	8.1%	
Non-controlling interests	(3.7)	(3.2)	(14.3)
PATMI	31.3	396.1	(92.1)
PATMI %	0.7%	8.2%	
Operational PATMI	128.5	102.2	25.7
Operational PATMI %	3.0%	2.1%	

Other Income

Other income (excluding exceptional items) was reduced by S\$3.5 million due to lower commissions and claims income recorded during the current period.

Cost of Sales

The change in cost of sales normally follows the corresponding change in revenue for the period. While revenue declined by 10.7%, cost of sales declined by 14.0% in Q1 2015 due to currency devaluation, which favourably impacted our export oriented businesses in countries such as Brazil, Australia and Turkey by lowering the cost of sales. However, margins in our import and domestic businesses, particularly in Nigeria, Ghana and Mozambique were adversely impacted as local prices had not fully adjusted to the extent of the devaluation in currency.

Overhead Expenses

Overhead expenses recorded an increase of 6.3% to S\$216.0 million in Q1 2015 from S\$203.2 million in Q1 2014.

Other Operating Expenses

Other operating expenses increased by S\$60.8 million, primarily on account of higher unrealised foreign exchange losses during the current period. A large proportion of these losses had a corresponding favourable impact in the cost of sales for our export oriented businesses, but had an adverse impact on margins for our import and domestic businesses.

Net Changes in Fair Value of Biological Assets

There was a reduction in fair value of biological assets of S\$6.0 million from a loss of S\$8.7 million in Q1 2014 to a loss of S\$14.7 million in Q1 2015. The reduction was primarily a result of a lower net fair value of our Australian almond plantation assets as most of the estates achieved peak maturity.

Share of Results from Jointly Controlled Entities and Associates

Share of results from jointly controlled entities and associates declined from a gain of S\$3.8 million in Q1 2014 to a loss of S\$8.9 million in Q1 2015, mainly due to reduced contribution from SIFCA on lower palm and rubber prices, the Acacia Palm joint venture in Mozambique which was adversely affected by the local currency devaluation and the SEZ business.

Depreciation and Amortisation

Depreciation and amortisation declined from S\$57.5 million in Q1 2014 to S\$52.4 million in Q1 2015 due to a lower fixed asset base as a result of divestments.

Finance Costs

Net finance costs declined from S\$141.2 million in Q1 2014 to S\$123.2 million in Q1 2015 due to a reduction in the overall cost of borrowing arising from the repayment of higher cost and longer tenor loans in 2014.

Taxation

Tax charge on the base business was lower at S\$29.6 million in Q1 2015 compared to S\$37.6 for Q1 2014 due to a change in the geographical mix of business towards lower tax jurisdictions.

Non-controlling Interest

Non-controlling interest primarily comprised the minority share of results from Rusmolco, Olam Palm Gabon, Olam Rubber Gabon and Caraway. Q1 2015 recorded a loss of S\$3.7 million, compared to a loss of S\$3.2 million in Q1 2014 with the improved performance from Rusmolco being offset by the adverse impact of currency devaluation on the Packaged Foods business.

Exceptional Items

Q1 2015 results included a net exceptional loss of S\$97.2 million as against a gain of S\$293.9 million in Q1 2014 as shown below:

SGD Mn

	Q1 2015	Q1 2014
Sale of Dairy Processing Plant, Cote d'Ivoire	0.3	
Sale and Leaseback of Dairy Farm Land, Uruguay	0.4	
Sale of Australian Wool Business	(0.1)	
Sale and leaseback of Almond Plantation Assets, Australia		63.2
Sale of Timber Assets, Gabon		(14.6)
Closure of SVI dehydrates facility, US	(0.1)	
Write-off of Laos Coffee Plantation expenses		(26.7)
Fair Valuation of investment in PureCircle Limited		271.0
Loss on Bonds Redemption 2015 - Interest portion	(79.7)	
Loss on Bonds Redemption 2015 - FV portion	(18.1)	
Repurchase of bonds and perpetual securities		1.0
Exceptional Items	(97.2)	293.9

Balance Sheet Analysis

Working Capital

SGD Mn

	31-Mar-15	31-Dec-14	Change vs Dec 14	31-Mar-14	Change vs Mar 14
Stock	4,890.9	4,988.3	(97.4)	4,944.4	(53.5)
Advance to suppliers	920.2	664.4	255.8	538.2	382.0
Receivables	1,517.4	1,373.7	143.7	2,226.8	(709.4)
Trade creditors	(1,282.5)	(1,373.2)	90.7	(1,490.3)	207.8
Others	275.5	606.2	(330.7)	663.4	(387.9)
Working Capital	6,321.5	6,259.4	62.1	6,882.5	(561.0)

Others: Include other current assets, changes to margin accounts with brokers and other current liabilities

The overall working capital increased by S\$62.1 million compared to end-December 2014, primarily due to higher receivables and advances to suppliers for procurement, which was offset by a reduction in the margin accounts with brokers. However, as compared to end-March 2014, there was an overall reduction of S\$561.0 million due to lower receivables and margin accounts with brokers, partly offset by higher advances to suppliers and lower trade creditors.

of days

	31-Mar-15	31-Dec-14	Change vs Dec 14	31-Mar-14	Change vs Mar 14
Stock	111	110	1	110	1
Advance to suppliers	20	14	6	12	8
Receivables	30	27	3	44	(14)
Trade creditors	(29)	(30)	1	(33)	4
Total cash cycle	132	121	11	133	(1)

Our overall working capital cycle increased from 121 days as at end-December 2014 to 132 days as at end-March 2015 as we entered the peak season for procurement. When compared

to end-March 2014, there was a significant improvement in receivable days, which was offset by higher advances to suppliers and lower trade creditor days.

Debt, Liquidity and Gearing

	SGD Mn

Gross debt	9,277.8	9,840.7	(562.9)	9,506.8	(229.0)
Less: Cash	1,272.6	1,845.8	(573.2)	1,022.6	250.0
Net debt	8,005.2	7,994.9	10.3	8,484.2	(479.0)
Less: Readily marketable inventory	3,673.1	3,947.9	(274.8)	3,945.6	(272.5)
Less: Secured receivables	1,062.2	1,030.4	31.8	1,712.4	(650.2)
Adjusted net debt	3,269.9	3,016.6	253.3	2,826.2	443.7
Equity (before FV adj reserves)	4,363.4	4,320.1	43.3	4,186.5	176.9
Net debt / Equity (Basic)	1.83	1.85	(0.02)	2.03	(0.19)
Net debt / Equity (Adjusted)	0.75	0.70	0.05	0.68	0.07

Net debt increased marginally by S\$10.3 million as compared to end-December 2014. Net gearing of 1.83 times as at March 31, 2015 was marginally lower than the 1.85 times as at December 31, 2014 and in line with our 2016 objective of operating at or below 2.0 times. When compared to the gearing of 2.03 times as at March 31, 2014, there was a reduction in gearing resulting from a combination of lower net debt and higher equity.

Of the S\$4.9 billion inventory position, approximately 75.1% or S\$3.7 billion were readily marketable inventories (RMI) that were liquid, hedged and/or sold forward, operating as near-cash assets on our balance sheet. In addition, of the S\$1.5 billion in trade receivables, approximately 70.0% were secured. Typically, at any given point, about 80-90% of inventory is hedged and/or sold forward and 60-70% of receivables are supported by letters of credit or documents through banks. Adjusting for RMI and secured receivables, our net gearing would be 0.75 times, reflecting the true indebtedness of our Company.

We maintained sufficient liquidity to meet our working capital and capital expenditure requirements, with a total of S\$13.2 billion in available liquidity as at March 31, 2015, including unutilised bank lines of S\$7.1 billion.

Segmental Review and Analysis

For the Quarter

SGD Mn

Segment	Sales Volume ('000 MT)		Revenue		EBITDA		Invested Capital (IC)		
	Q1 2015	Q1 2014	Q1 2015	Q1 2014	Q1 2015	Q1 2014	31-Mar-15	31-Dec-14	31-Mar-14

Total	2,682.8	4,018.0	4,321.1	4,836.4	330.1	335.3	11,800.0	11,556.8	12,038.1

Note: IC excludes:

- (a) Gabon Fertiliser Project (31-Mar-15: S\$173.7 million, 31-Dec-14: S\$182.4 million, 31-Mar-14: S\$177.0 million), and
- (b) Long Term Investment (31-Mar-15: S\$333.9 million, 31-Dec-14: S\$334.4 million, 31-Mar-14: S\$392.2 million)

Edible Nuts, Spices & Vegetable Ingredients

The Edible Nuts, Spices & Vegetable Ingredients segment registered a year-on-year volume decline of 17.2%, revenue growth of 13.2% and EBITDA growth of 14.6% in Q1 2015.

The decline in volume was primarily on account of lower cashew volumes from the partial discontinuation of operations at our mechanical cashew processing facility in Nigeria, as well as lower tomato paste volumes as compared to the prior corresponding period during which slow-moving inventories were liquidated. Segment revenues were higher due to elevated prices across almonds, hazelnuts and pepper.

The almonds business continued its strong performance, aided by higher prices. The US spices and vegetables business also performed well. Our peanuts business in Argentina was impacted adversely by lower prices and by the improved competitiveness of the US peanut industry in the export markets.

Invested capital in the segment decreased by S\$228.1 million as compared to end-March 2014 primarily due to the sale and leaseback of upstream almond assets and a reduction in tomato paste and cashew inventories leading to lower deployment of working capital as compared to the prior period.

Confectionery & Beverage Ingredients

The Confectionery & Beverage Ingredients segment recorded a volume increase of 3.2%, while revenues increased by 12.1% due to higher Cocoa prices compared to the prior corresponding period. The fall in coffee prices during Q1 2015 had resulted in market illiquidity in the short term and market conditions are expected to normalise over the next few quarters. Segment EBITDA grew by 8.0% with contributions from both the Coffee and Cocoa divisions.

Invested capital in the segment increased by S\$411.4 million as compared to end-March 2014 mainly due to an increase in inventory levels carried at higher average prices as compared to the prior corresponding period.

Food Staples & Packaged Foods

Food Staples & Packaged Foods segment volumes declined by 42.1% while revenues decreased by 37.7% primarily due to the deconsolidation of the Grains business in Australia and the discontinued operation in South Africa.

The Grains and Rice distribution businesses as well as the Sugar and Dairy supply chain businesses performed well during this period. However, overall segment EBITDA declined by 34.4% due to reduced volumes from discontinued operations, continued underperformance of Dairy farming operations in Uruguay and the impact of currency devaluation on our Packaged Foods and Palm refining and distribution businesses in Nigeria, Ghana and Mozambique. We expect this adverse margin impact of currency devaluation to continue in the near term.

Overall invested capital decreased by S\$394.8 million vis-à-vis end-March 2014, which was due to a reduction in fixed assets from the sale of the Dairy processing plant in Cote d'Ivoire and the sale-and-leaseback of Dairy farm land in Uruguay and from a reduction in working capital in the Grains and Dairy supply chain businesses.

Industrial Raw Materials

The Industrial Raw Materials volumes declined by 24.0% due to reduced Fertiliser trading and Wood Products volumes during the current period. Segment revenue declined by 15.9% due to lower volumes and lower Cotton prices as compared to the prior period.

Segment EBITDA increased by 5.0% due to higher contribution from the Cotton business and the Wood Products business, partly offset by lower contribution from Rubber, Fertiliser trading and the SEZ business.

Overall invested capital declined marginally by S\$30.3 million compared to end-March 2014 with investments in upstream Rubber plantations partly offset by reduction in segment working capital.

Commodity Financial Services

The CFS business registered an improved EBITDA of S\$11.0 million in Q1 2015 versus a loss of S\$4.3 million in Q1 2014.

Cumulative Financials (Jul 2014 to Mar 2015)

Profit and Loss Statement

SGD Mn

	9M FY15	9M FY14	% Change
Volume ('000 MT)	9,188.4	11,379.1	(19.3)
Revenue	13,499.1	13,664.1	(1.2)
EBITDA	832.7	900.1	(7.5)
PAT	190.1	566.4	(66.4)
PATMI	194.3	576.7	(66.3)
Operational PATMI	265.8	276.9	(4.0)

Volume for 9M FY2015 declined by 19.3% over 9M FY2014 primarily on account of reduced volume from lower margin or discontinued businesses (such as Wood Products, Grains trading and cashew processing). Overall revenue declined marginally by 1.2% due to lower volumes, which was partly offset by higher prices of some commodities, such as almonds, cocoa, coffee, pepper and hazelnuts as compared to the prior corresponding period.

EBITDA for 9M FY2015 declined by 7.5% to S\$832.7 million as growth across most segments was offset by underperformance in upstream Dairy in Uruguay and from the net adverse impact of currency devaluation, particularly across our import and domestic distribution businesses in Nigeria, Ghana, Russia and Mozambique. The estimated net adverse impact on the EBITDA for 9M FY2015 was approximately S\$42.0 million.

These results also included a net loss of S\$42.5 million on the fair valuation of biological assets compared to a net loss of S\$20.7 million in 9M FY2014.

Reported PATMI for 9M FY2015 declined by 66.3% while Operational PATMI (excluding exceptional items) declined by 4.0% over the prior corresponding period with the positive impact of lower finance costs, tax and depreciation and amortisation expenses offsetting the lower EBITDA for the period.

Balance Sheet Analysis

SGD Mn

	31-Mar-15	30-Jun-14	Change vs Jun 14
Uses of Capital			
Fixed Capital	5,811.1	6,143.9	(332.8)
Working Capital	6,321.5	5,956.0	365.5
Cash	1,272.6	1,590.1	(317.5)
Others	258.8	(127.7)	386.5
Total	13,664.0	13,562.3	101.7
Sources of Capital			
Equity & Reserves	4,363.4	4,260.4	103.0
Non-controlling interests	232.6	22.1	210.5
Short term debt	2,725.0	4,503.8	(1,778.8)
Long term debt	6,552.8	4,836.2	1,716.6
Fair value reserve	(209.8)	(60.2)	(149.6)
Total	13,664.0	13,562.3	101.7

Our total assets of S\$13.7 billion comprised S\$1.3 billion of cash, S\$6.3 billion of working capital and S\$5.8 billion of long term fixed assets. These were funded by S\$4.4 billion of equity, S\$2.7 billion of short term debt and S\$6.6 billion of long term debt.

Cash Flow Analysis

SGD Mn

Cash Flow Summary	9M FY15	9M FY14	Y-o-Y
Operating Cash flow (before Interest & Tax)	927.2	875.5	51.7
Changes in Working Capital	(559.3)	(1,376.5)	817.2
Net Operating Cash Flow	367.9	(501.0)	868.9
Tax paid	(49.3)	(38.1)	(11.2)
Capex/ Investments	(122.8)	(168.0)	45.2
Free cash flow to firm (FCFF)	195.8	(707.1)	902.9
Net interest paid	(364.5)	(403.1)	38.6
Free cash flow to equity (FCFE)	(168.7)	(1,110.2)	941.5

We generated positive free cash flow to firm of S\$195.8 million during 9M FY2015 as against negative S\$707.1 million during 9M FY2014 from higher operating cash flow, lower working capital requirements, reduced pace of new investments and release of cash from our strategic plan initiatives as compared to the prior corresponding period.

Detailed Financial Analysis

SGD Mn

	9M FY15	9M FY14	% Change
Volume ('000 MT)	9,188.4	11,379.1	(19.3)
Revenue	13,499.1	13,664.1	(1.2)
Other Income (excl. exceptional items)	32.8	30.8	6.5
Cost of sales	(11,778.9)	(12,225.0)	(3.6)
Overhead expenses	(629.9)	(562.1)	12.1
Other operating expenses	(236.1)	3.9	n.m.
Net loss in fair value of biological assets	(42.5)	(20.7)	105.4
Share of results from jointly controlled entities and associates	(11.8)	8.9	n.m.
EBITDA	832.7	900.1	(7.5)
EBITDA %	6.2%	6.6%	
Depreciation & Amortisation	(157.3)	(168.1)	(6.4)
EBIT	675.4	732.0	(7.7)

Net Finance costs	(352.1)	(400.4)	(12.1)
PBT	251.8	631.4	(60.1)
Taxation	(61.7)	(65.0)	(5.1)
PAT	190.1	566.4	(66.4)
PAT %	1.4%	4.1%	
Non-controlling interests	(4.2)	(10.2)	58.9
PATMI	194.3	576.7	(66.3)
PATMI %	1.4%	4.2%	
Operational PATMI	265.8	276.9	(4.0)
Operational PATMI %	2.0%	2.0%	

Other Income

Other income (excluding exceptional items) was largely flat as compared to the prior corresponding period.

Cost of Sales

The change in cost of sales normally follows the corresponding change in revenue for the period. While revenue declined by 1.2%, cost of sales declined by 3.6% over 9M FY2014 due to currency devaluation, which favourably impacted our export oriented businesses in countries such as Brazil, Australia, Indonesia and Turkey by lowering the cost of sales. However, our import and domestic businesses, particularly in Nigeria, Russia, Ghana and Mozambique were adversely impacted as local prices had not fully adjusted to the extent of the devaluation in currency.

Overhead Expenses

Overhead expenses grew by 12.1% to S\$629.9 million in 9M FY2015 from S\$562.1 million in 9M FY2014 due to higher lease rentals from the sale and leaseback of upstream assets as well as higher employee expenses.

Other Operating Expenses

Other operating expenses increased by S\$240.0 million, primarily on account of higher unrealised foreign exchange losses during the current period. A large proportion of these losses had a corresponding favourable impact in the cost of sales for our export oriented businesses, but had an adverse impact on margins for our import and domestic businesses.

Net Changes in Fair Value of Biological Assets

There was a reduction in fair value of biological assets of S\$21.8 million from a loss of S\$20.7 million in 9M FY2014 to a loss of S\$42.5 million in 9M FY2015. The reduction was primarily a result of a lower net fair value of our Australian almond plantation assets as most of the estates achieved peak maturity.

Share of Results from Jointly Controlled Entities and Associates

Share of results from jointly controlled entities and associates declined from a gain of S\$8.9 million in 9M FY2014 to a loss of S\$11.8 million in 9M FY2015, mainly due to reduced contribution from SIFCA on lower palm and rubber prices, the Acacia Palm joint venture in Mozambique due to currency devaluation which was partly offset by a higher contribution from OCDL and the SEZ business.

Depreciation and Amortisation

Depreciation and amortisation declined from S\$168.1 million in 9M FY2014 to S\$157.3 million in 9M FY2015 due to a lower fixed asset base as a result of divestments.

Finance Costs

Net finance costs declined from S\$400.4 million in 9M FY2014 to S\$352.1 million in 9M FY2015 due to a reduction in the overall cost of borrowing arising from the repayment of higher cost and longer tenor loans in 2014.

Taxation

Tax charge on the base business was largely flat as compared to the prior corresponding period.

Non-controlling Interest

Non-controlling interest primarily comprised the minority share of results from Rusmolco, Olam Palm Gabon, Olam Rubber Gabon, Invenio Holdings (Commodity Financial Services), the Sanyo Foods (noodles) joint venture and Caraway. 9M FY2015 recorded a loss of S\$4.2 million, compared to a loss of S\$10.2 million in 9M FY2014 due to better performance in Rusmolco as compared to the prior period.

Exceptional Items

9M FY2015 results included a net exceptional loss of S\$71.5 million as against a gain of S\$299.8 million in 9M FY2014 as shown below:

	SGD Mn	
	9M FY15	9M FY14
Sale of Dairy Processing Plant, Cote d'Ivoire	13.2	
Sale and Leaseback of Dairy Farm Land, Uruguay	20.4	
Sale of Australian Wool Business	(2.7)	
Sale of Dirranbandi Cotton Gin, Australia		5.9
Sale and leaseback of Almond Plantation Assets, Australia		63.2

Annexure: Business Description

Business Model and Strategy

Olam's business is built on a strong foundation as a fully integrated supply chain manager and processor of agricultural products and food ingredients, with operations across 16 platforms in 65 countries. As a supply chain manager, Olam is engaged in the sourcing of a wide range of agricultural commodities from the producing countries and the processing, warehousing, transporting, shipping, distributing and marketing of these products right up to the factory gate of our customers in the destination markets. We also manage risk at each stage of the supply chain. From our inception in 1989, we have evolved from a single country, single product trader to a multi-country, multi-product supply chain manager.

In that process of evolution and development, the Olam business model has grown both in depth as well as breadth, pursuing selected value chain adjacencies which both complement and enhance our core supply chain model.

Business model evolution

The evolution of our business model over recent years has led us to develop new competencies as we pursued our strategic goals, including the capabilities to identify, execute and integrate attractive acquisition opportunities in selected countries. These initiatives are carefully selected to be within or adjacent to our core value chain activities. Successfully completed transactions have addressed opportunities in the upstream (plantation and farming), midstream (manufacturing/ processing) and downstream parts of the value chain.

Building on existing and new capabilities, we have expanded upstream selectively into plantation ownership and management (perennial crops), farming (annual crops), dairy farming and forest concessions management. These opportunities, both organic and inorganic, have been pursued in countries that have a comparative advantage to produce these commodities relatively better and at relatively lower costs on a sustainable basis.

Selective investments across the value chain

Pursuit of this strategy has led us to invest selectively in almond orchards in Australia and US, peanut farming in Argentina, Coffee plantation in Laos, Ethiopia, Tanzania, Zambia and Brazil, Rice farming in Nigeria, Palm and Rubber plantations in Africa, Dairy farming in Uruguay and Russia, and the development of tropical hard wood forest concessions in the Republic of Congo (ROC).

Similarly, in the midstream part of the value chain, we have pursued initiatives in value-added processing and manufacturing activities, such as peanut shelling in the US, mechanical processing of cashews in Côte d'Ivoire, hazelnut processing in Turkey, spice grinding in Vietnam, soluble Coffee manufacturing in Vietnam and Spain, Cocoa processing in Côte d'Ivoire, and Nigeria and wheat milling in Nigeria, Senegal and Ghana. We recently signed an agreement to acquire the global cocoa processing business of ADM, which would transform our cocoa platform in a market leading global player in the cocoa sector.

Downstream progress has been reflected in the initiatives completed in Packaged Foods distribution in West Africa and the successful development of our own consumer brands in the food category, which capitalise on our intimate knowledge of African markets, operations, brands, and consumers. This

downstream activity also builds on capabilities in the management of food supply chains and on the common distribution pipeline that we have built for related commodity products (including Rice, Sugar, wheat and Dairy products) in West Africa. Initiatives in this segment include biscuits and candy manufacturing and downstream distribution in Nigeria and Ghana, juice and dairy beverages in Nigeria, instant noodles, seasonings, tomato paste distribution in Nigeria and selective West African markets.

In addition, Olam has diversified into three adjacent businesses which build on latent assets and capabilities developed over the last 25 years – the Commodity Financial Services business (CFS), the development of a Special Economic Zone (SEZ) and fertiliser manufacturing in Gabon.

A responsible approach to business

Corporate responsibility and sustainability have always been an essential part of our way of doing business around the world. In addition to our longstanding adherence to documented standards, we have also recently established an Olam Livelihood Charter, and continue to work both on our own and with selected expert partners to advance our objectives in this area.

A unique and entrepreneurial culture

One of the major factors that sets Olam apart is our unique culture: we think and act as owner-managers, focused both on the realisation of short-term results and the creation of long-term value for our stakeholders. A fully aligned organisational structure, culture and long-term compensation system support these objectives.

Business Segmentation and Reporting

We organise Olam's operations into five business segments and three value chain segments for reporting purposes. The distribution of the 16 platforms across the business segments and the activities across the value chain segments are given below:

5 Business Segments	16 Platforms
Edible Nuts, Spices & Vegetable Ingredients (formerly known as Edible Nuts, Spices & Beans)	1) Edible Nuts (cashew, peanuts, almonds, hazelnuts and sesame) 2) Spices & Vegetable Ingredients (including onion, garlic, and tomato)
Confectionery & Beverage Ingredients	3) Cocoa 4) Coffee
Food Staples & Packaged Foods	5) Rice 6) Sugar and Natural Sweeteners 7) Grains (including wheat, corn and barley) 8) Palm 9) Dairy 10) Packaged Foods
Industrial Raw Materials (IRM)	11) Natural Fibres (cotton) 12) Wood Products 13) Rubber 14) Fertiliser supply chain 15) Special Economic Zone (SEZ)
Commodity Financial Services (CFS)	16) Commodity Financial Services (Market-making, risk management solutions and commodity funds management)

3 Value Chain Segments	Value Chain Activity
Supply Chain (including value added services)	Includes all activities connected with origination, sourcing, primary processing, logistics, trading, marketing (including VAS) and risk management of agricultural products and the CFS business
Upstream	Includes all activities relating to farming (annual row crops), plantations (perennial tree crops), Dairy farming and forest concessions
Midstream & Downstream	Includes all activities relating to secondary processing, contract manufacturing, branded distribution, private label activities and SEZ

The production of agricultural products is seasonal in nature. The seasonality of the products in our global portfolio depends on the location of the producing country. The harvesting season for most of the agricultural products for countries situated in the northern hemisphere generally falls between October and March. Countries in the southern hemisphere have harvesting seasons between April and September. It is also not unusual to experience both delays, as well as early starts, to the harvesting seasons in these countries in a particular year, based on weather patterns. In addition to an early or delayed harvesting season, the precise timing and size of arrivals of these products can also vary based on the farmers' selling decisions; these are mainly a function of the farmers' view on prices and inventory holding capacity. The majority of our origins are located in the northern hemisphere. Consequently, our earnings tend to be relatively higher in the first half of the year (January to June) compared to the second half of the year (July to December). Based on this seasonality, we have observed the distribution of our earnings in prior periods follow the schedule below:

Q1 Jan - March	Q2 Apr – June	1 st Half Jan – June	Q3 July - Sept	Q4 Oct - Dec	2 nd Half July – Dec
35 – 40%	25 – 30%	60 – 70%	5 – 10%	25 – 30%	30 – 40%

Key Definitions

The definitions for the financial terms used in the MD&A are as follows:

Sales Volume: There are no associated volumes for CFS and SEZ platforms

Revenue: Sale of goods and services

Other Income: Includes sale of scrap materials, commissions and claims income and fair value gain on investments held for trading. Negative goodwill, gain on sale of assets and other non-recurring, exceptional items which were presented as a part of Other Income are now classified as Exceptional Items

Cost of Sales: Cost of goods sold, shipping and logistics, commissions and claims expenses and the net measurement of derivative assets

Overhead Expenses: Employee benefit costs, manufacturing overheads, travel expenses and other direct expenses

Other Operating Expenses: Unrealised foreign exchange gain/loss and other expenses

Net changes in fair value of biological assets: Includes only operational changes in the fair value of biological assets. Non-operational changes (arising due to changes in the fair value model) which were formerly presented under this line item are now classified as Exceptional Items

Exceptional Items: One-off, non-recurring items, including negative goodwill and related transaction costs, gain/loss on sale of assets/business, gain/loss on buyback of bonds, impairment loss, non-operational gain/loss from changes in fair value of biological assets, finance charges on pre-payment of loans and non-recurring business restructuring expenses. Tax expenses associated with these items are also presented as Exceptional Items. These items were earlier presented under Other Income, Cost of Sales, Overhead Expenses, Other Operating Expenses lines, Finance costs and Taxation.

Operational PATMI: Profit After Tax and Minority Interest (PATMI) excluding exceptional items

EBITDA: Earnings Before Interest, Tax, Depreciation and Amortisation (EBITDA) which includes minority interest and excludes exceptional items

Invested Capital (IC): Excludes cash and bank balances, deferred tax assets, fixed deposits, other current/non-current assets (other than option premiums payable/receivable) and fair value of derivative assets on bonds.

EBITDA/IC: EBITDA on average invested capital based on beginning and end-of-period invested capital

Net Gearing: Ratio of Net Debt (gross debt less cash) to Equity (before fair value adjustment reserves)

Free Cash Flow to Firm (FCFF): Operating cash flow less changes in working capital, cash taxes, capital expenditures and investments

Free Cash Flow to Equity (FCFE): FCFF less net interest paid

Note: Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
