

Supporting our farmers and communities

Olam's global teams are on the frontline in the communities where we operate. We are working with our partners and government authorities to support national education and awareness efforts and have committed **over US\$7 million** of in-kind and financial support to date, benefitting over 11.5 million employees, farmers and their families across 33 countries.

AFRICA

- Donation of **US\$600,000 worth of medical supplies** to the Ministry of Health in Côte d'Ivoire to support national COVID response efforts, along with **20,000 testing kits** in partnership with Temasek Foundation.

- Also in Côte d'Ivoire, Olam's cotton team have manufactured and distributed **35 handwashing pumps** as part of a donation of medical and sanitation supplies worth US\$18,000, to local authorities in the Tchologo region.

- COVID sensitisation via Olam's Digital Supplier Engagement (DSE) apps to 1,400

cooperative leaders and licensed buying agents, who, in turn, are helping spread the word - via calls, texts, recorded announcements and posters - to up to 150k farmers and their families.

- **Olam Nigeria** has sourced and donated **\$100k of medical equipment** and essential **food supplies** – including include Mama Pride rice, Tasty Tom noodles, OK biscuits and Crown pasta – to state governments, local hospitals and the Nigeria Centre for Disease Control (NCDC).

COVID-19 UPDATE

In Ghana:

- **US\$8,500 worth of freshly baked bread** to frontline health workers and patients donated by Olam Grains in partnership with prominent bakeries in Accra, Kumasi and Tamale.
- **396 Kgs of Tasty Tom Tomato Mix** from Olam's Packaged Foods business to the Ghana Chefs Association to prepare ~6,000 meals for frontline workers.
- Donation of a **consignment of medical supplies** to the Greater Accra Regional Hospital (GARH) and the Kumasi Centre for Collaborative Research (KCCR):
"These items are all very valuable supplies for the battle ahead...and this is a battle we have to fight and win collectively. But we must understand that the treatment of COVID-19 is expensive because a lot of the material we use must be discarded immediately after use, which is why we consider support from organisations like Olam most welcome." Dr Emmanuel Srofenyoh, Medical Director, GARH.
