11	24th Jan 2020 Bumitama Group PT Andalan Sukses Makmur	Wilmar	Deforestation – 129 ha	Mighty Earth Rapid Response 23	Mar 2020 Wilmar updated stated that Bumitama conducted ground checking and verified that this is not a result of land clearing but a fire scar from forest fires that occurred in the area in September 2019. These areas are owned by the local community and thus enclaved from the management of the company are a part of the set-aside areas of 2,500 hectares (about 36% of PT ASMR's permit) that were excluded from the company plantation development plans and were set-aside for conservation based on the rapid HCS assessment and peat delineation study conducted in April 2014 (refer to 12 September 2014). Announcement: http://ir.bumitama-agri.com/static-files/5ce66171-9006-449f-9189-b206eca3e0c7).	Investigation

						<p>The fires were tackled by our Bumitama's fire-response personnel. Two teams of 24 men were dispatched to the site, equipped with pumps and water hoses to douse the flames. However, the forest terrain, lack of access roads and peat soil made it very difficult to extinguish. Once put out, both incidents were recorded and reported accordingly to relevant local authorities, as well as to the RSPO under the hotspot monitoring scheme.</p> <p>24 Jan 2020 We have reached out to Wilmar and are waiting for a response</p>
